

Agenda[®] 25 EC

The new termite control specialist!

Agenda 25 EC,
for assured termite control.

- Used for post construction and above the ground treatment for efficient termite colony management
- Flexibility of application
- Long lasting
- 100% more effective

Termite colony
management through
the Domino Effect

ACTIVE INGREDIENT

Fipronil 2.92% EC

RECOMMENDED USES

Agenda can be used for control of termites in the buildings through Pre-construction as well as Post-construction anti termite treatment

MODE OF ACTION

Fipronil acts on termite's nervous system through contact as well as ingestion

BENEFITS

- Non-repellent, hence termites cannot recognize the gaps present in the chemical barrier
- Gets readily transferred between one termite and another, through contact, trophylaxis and grooming
- Good soil binding properties facilitate the retention of active ingredient, giving long term protection and colony management
- Minimal leaching potential into ground water

DOSAGE

12.5 gm a.i/ sq. meter for the control of termites in buildings during pre and post-construction anti termite treatment

Note: Treatment has to be carried out as per current BIS practices

ANTIDOTE

There is no known specific antidote. Treat symptomatically

PACKS

100 ml and 500 ml

CAUTION

Not to be used, other than for the specified usages as mentioned on this leaflet / pack label / pack leaflet
